Lower 48 working gas in underground storage as of May 17, 2019: 1,753 Bcf | Weekly net change: ▲ 100 Bcf

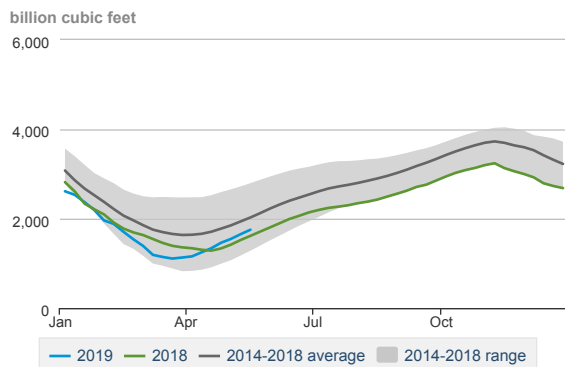

Underground working natural gas storage summary as of May 17, 2019

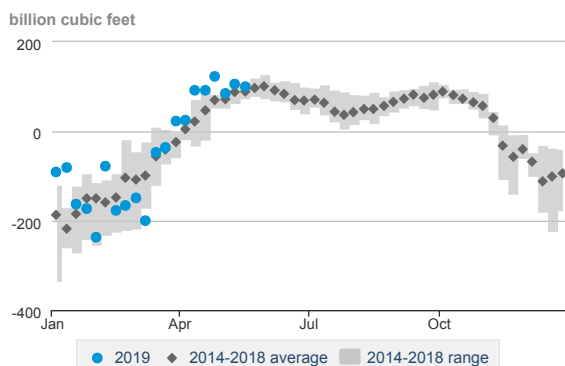

Underground storage capacity utilization

Lower 48 weekly working gas in underground storage

Lower 48 weekly net change in working gas in underground storage

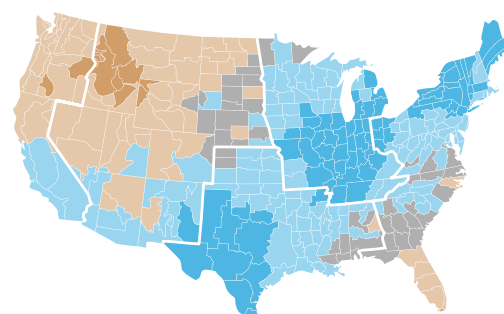

DEPARTURE FROM NORMAL

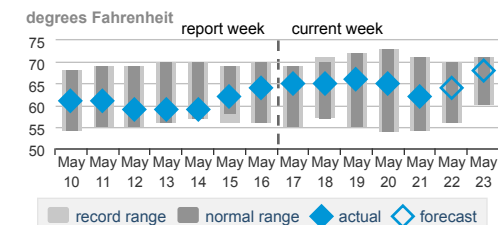

WEEKLY CHANGE

DAILY ANIMATION

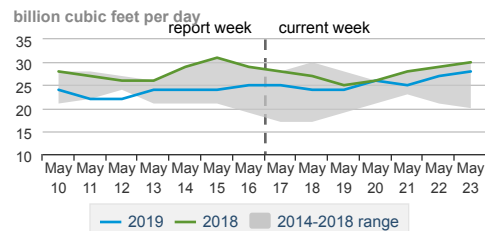

Weekly average departure from normal temperatures as of May 16, 2019

Daily Lower 48 average temperatures

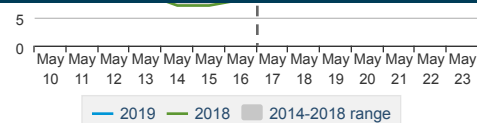

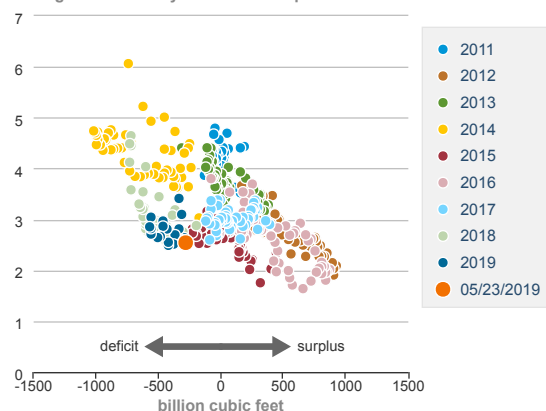

Daily Lower 48 natural gas consumption for electricity generation

Daily Lower 48 natural gas consumption for residential/commercial use

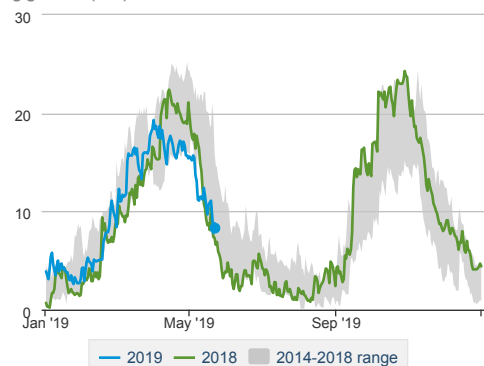

price of gas at the Henry Hub in dollars per million British thermal units

Daily U.S. nuclear outages

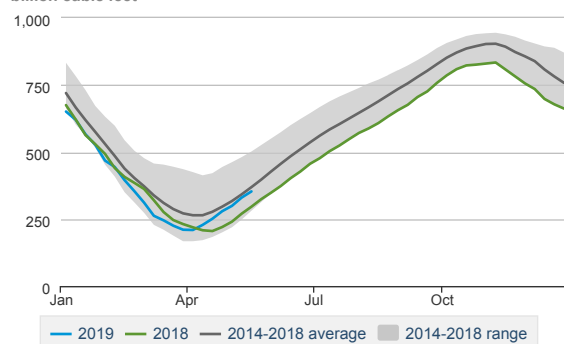

gigawatts (GW)

Regional Natural Gas Storage Stocks

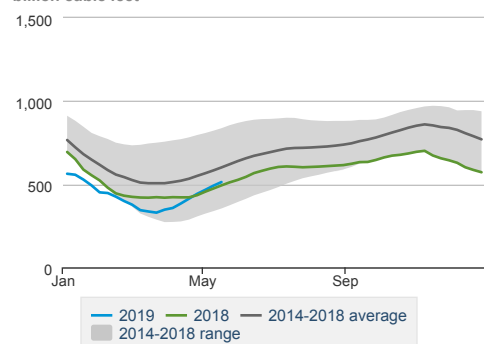

East region weekly working gas in underground storage

billion cubic feet

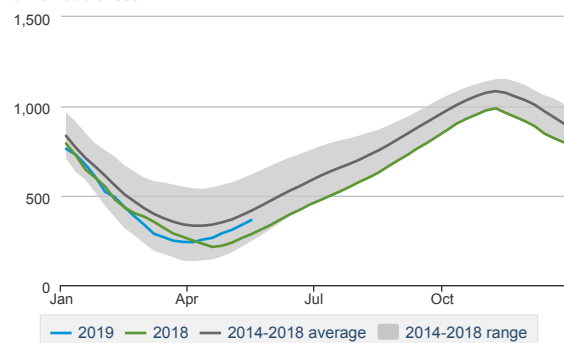

South Central Nonsalt region weekly working gas in underground storage

billion cubic feet

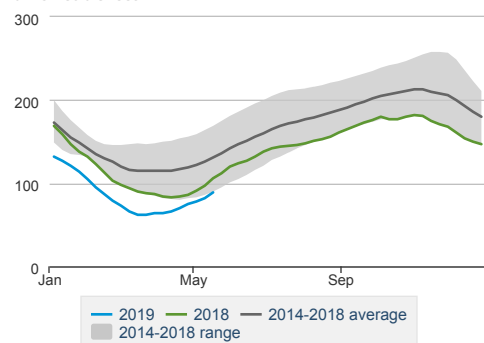

Midwest region weekly working gas in underground storage

billion cubic feet

Mountain region weekly working gas in underground storage

billion cubic feet

South Central region weekly working gas in underground storage

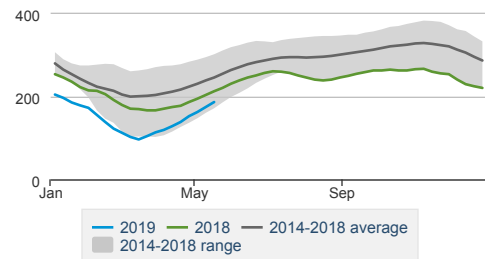

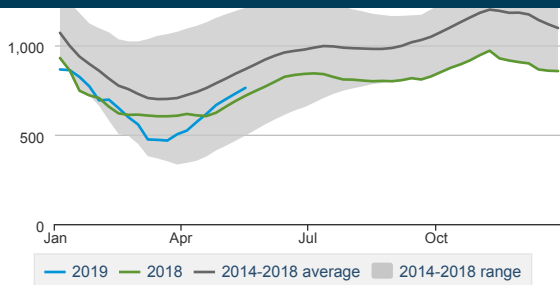

billion cubic feet

Pacific region weekly working gas in underground storage

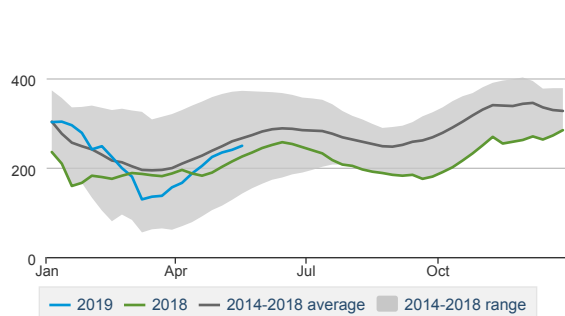

billion cubic feet

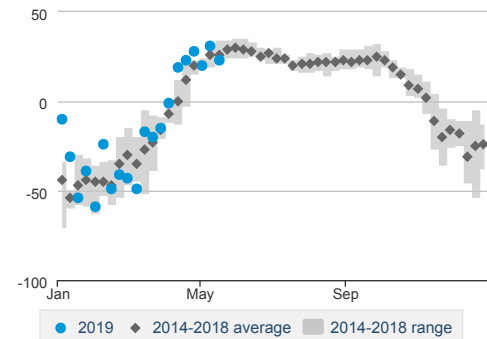

South Central Salt region weekly working gas in underground storage

billion cubic feet

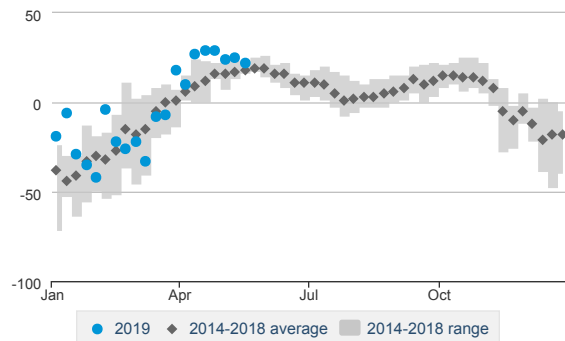

East region weekly net change in working gas in underground storage

billion cubic feet

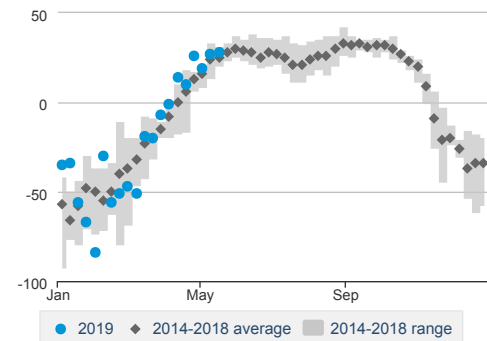

South Central Nonsalt region weekly net change in working gas in underground storage

billion cubic feet

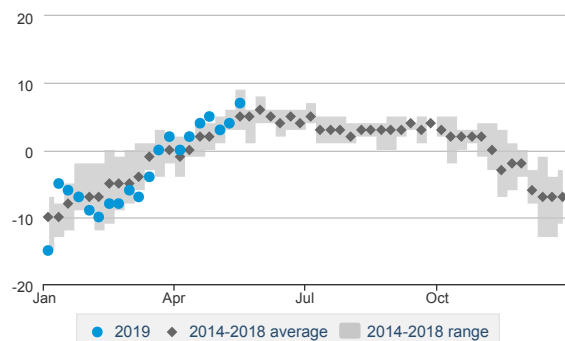

Midwest region weekly net change in working gas in underground storage

billion cubic feet

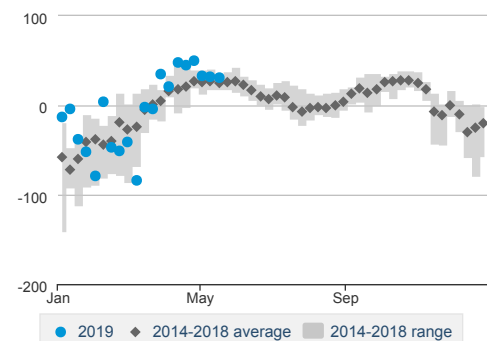

Mountain region weekly net change in working gas in underground storage

billion cubic feet

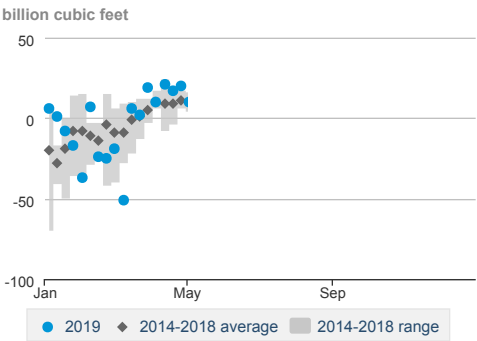

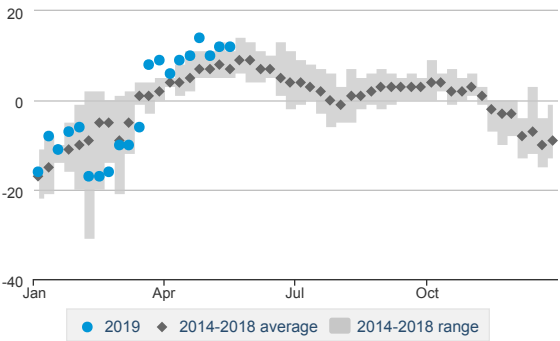

South Central region weekly net change in working gas in underground storage

billion cubic feet

Pacific region weekly net change in working gas

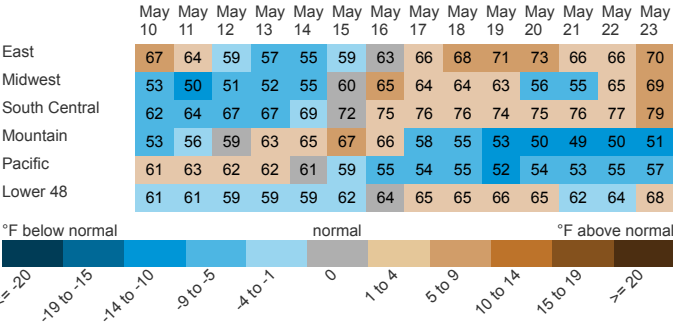

South Central Salt region weekly net

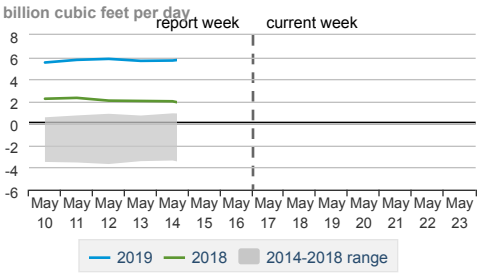

Prices and Other Indicators

Daily regional average temperatures and departure from normal

degrees Fahrenheit

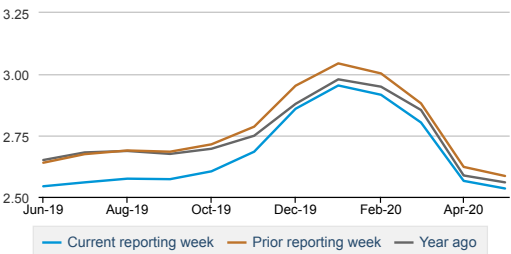

Daily Lower 48 net natural gas exports (includes pipeline gas and LNG feedstock/sendout changes)

Natural gas futures price (twelve-month strip)

dollars per million British thermal units
